AVEZAAT GROUP OF COMPANIES

A GREAT REPUTATION FOR MORE THAN 80 YEARS

Avezaat stands for extensive expertise, years of experience, high quality and high service levels, in the Netherlands and far beyond.

AVEZAAT CRANES

Since 1939 Avezaat Cranes is one of the world leaders in the following fields:

- ◆ Repair and manufacture of lattice booms, jibs and telescopic booms for mobile cranes of any brand and type.
- ◆ Repair and overhaul of crawler cranes, telescopic cranes, aerial work platforms, forklift trucks and spreaders of all brands and types.
- ◆ New and used (controlled) lattice booms and jibs supplied immediately from stock.

Avezaat Cranes has built up an internationally recognised reputation as a company supplying top quality products, certified and with guarantee.

The quality management system of the company is certified according to the requirements of ISO 9001:2015.

AVEZAAT STAAL

Avezaat Staal is a modern CNC flame- and plasma cutting company that distinguishes itself by the delivery of top quality thermal cut parts at competitive prices and very short delivery times.

All types of cut steelwork are supplied for:

- ◆ General and special machine building
- ◆ Industrial steel building and equipment manufacturing
- ◆ Shipbuilding, ship repair and offshore industry

Avezaat Staal:

- ◆ Keeps more than 2000 tons of steel in stock. Unalloyed structural steels, high strength steels, heat resistant steels, wear resistant steels, steels for ship building, pressure vessel steels and so on.
- ◆ Is certified according ISO 9001:2015.
- ◆ Is certified for remarking steel plates after cutting (heat / batch number, plate number) on base material with 3.1 or 3.2 certificate according to EN 10204: 2004 on cut products.
- ◆ Has a certificate of conformity of the factory production control, according to NEN-EN 1090-1:2009/A1:2011, Execution class 4.
- ◆ Delivers with its own transport throughout the Benelux.

The combined range of products and services comprises:

- ◆ Repair of all brands and types of mobile cranes, aerial work platforms, container spreaders and earth moving equipment.
- ◆ Oxy-fuel and plasma cutting in any size and grade of steel.
- ◆ Supplying of composite and steel road plates and outrigger pads.

AVEZAAT HOOGWERKERS

Avezaat Hoogwerkers is the brand-independent specialist in the repair and overhaul of aerial work platforms, forklift trucks and spreaders.

- ◆ Specialised in the repair and construction of booms and other high-quality structural components.
- ◆ Of any brand, type, capacity and size.
- ◆ Performance of all types of work. From resolving minor faults to constructing and/or partially renewing boom parts and/or other structural components.

ATS ROAD PLATES

ATS Road Plates is for years and with great success supplier of road plates and outrigger pads. All road plates and outrigger pads are available in many designs and in all desired dimensions. This at very competitive prices and with very short delivery times. Delivery throughout the hole country.

ATS Road Plates is knows for:

- ◆ Top quality moulded plastic road plates, available in all dimensions and, if desired, provided with an anti-slip layer, handles, company name and text ribbon.
- ◆ Steel road plates, manufactured in our own steel cutting plant, available with rounded corners an pull holes.
- ◆ Top quality plastic outrigger pads with carrying capacities ranging from 10 to 90 tonnes.

STRENGTH IN COLLABORATION

Combined forces

This combining of knowledge and close collaboration always allows the companies within the group to serve the customers very quickly while ensuring the highest possible quality. Avezaat Group of Companies is synonymous with short lines, immediate trouble-shooting and taking up any challenge.

Strategic locations

All companies of the Avezaat Business Group are located within 10 kilometers of the Port of Rotterdam and Rotterdam The Hague Airport and only a 40 minute drive from Amsterdam Schiphol Airport.
